The Time Awaited (It Has Come)

Throw down your struggle, forget your struggle

OOH, Sweet delight
Flows all around you, it's finally found you
OOH, Sweet delight

Chorus:

It has come, the time awaited, it has come
It has come, the time awaited, it has come

You walk into summer, it fills you, you wonder
Where have you been so long?
Night sky is singing, the moon is shining
Where have you been so long? (chorus)

Your eyes catch fire, you feel your desire
Flow like love to the sea
Across bright blue sky, red stallions that fly
Flow like love to the sea (chorus)

If You Need Somebody

We've here and gone and back again and gone
We can't slow down, we can't turn 'round
We drive one way down this highway

Chorus:

And all the world dies for love
All the world cries for love
All the world tries for love
If you need somebody, hey, that's all right
If you need somebody, free your hear tonight

All you easy rollers, good rockers, hey
Don't look back, don't keep track
You drive one way down this highway (chorus)

A Sunny Day

It's a sunny day, a sunny day
It's the month of May, the month of May
Never thought it would come again
But springtime is here
Never thought there'd be a time
I could live without fear
But friends are turning up here and there,
Everywhere
And now I am myself once more
I'm opening all those doors
Don't know where I'm bound for sure,
But it's not back to darkness
Seems like I'm seeing the light
And I'm not going back
Well, I can't find the works
They just don't come to me
Words to tell this feeling singing out that I'm free
And it's a sunny day, a sunny day
It's the month of May, the month of May
It's a sunny day, a sunny day

I'll Always Do

Chorus:

I'll always do my best for you
Under dark skies or blue, i will come through

When I first met you baby,
You were a soft sweet young thing
First time our lips kissed
That sure made my heart sing
And it's been ten years now
Since you became my wife
I still do believe
As long as I have life (chorus)

Sometimes we both come home
Crazy from the day
And sometimes I ain't got much to say
But you always been right here
When I need someone to watch with you
As our life unfolds (chorus-repeat chorus)

You Ain't (Gonna Change Me)

Chorus:

I don't care what you say
We can talk 'til the break of day
But you ain't gonna change me
You ain't gonna change me
You ain't gonna change me anyway

You tell me that I go to get real
Stop building castles in the air
Yeah, years flash past in a blur
And dreams are for children or fools
Why don't I put my feet on the ground? (chorus)

You call me Ahab, my whitewhale a dream
And dreams thieves who steal our rest
Well that might be true as God's word
But like my Father before
I ain't nothin' but what I am (chorus-repeat chorus)

The News

All day long everyone I know
Says the world is fallin' apart
I brigs you down, give you headaches
It can break your heart

I am here to sell no rainbow,
I don't care to argue much
If all you wanna do is sing hard times
I wish you'd still stay in touch

Chorus:

If you're comin' 'round to see me
Bring along all the news
Changing situations
If you're comin' 'round to see me
Bring all the news

If you ever been my friend
I remember you
If I don't write, it's 'cause I'm lazy
Three fourths crazy too
But my house is your house
Your friend's a friend of mine
And if I never see your face
I ain't forgettin' you (chorus)

Some get lost, some get found
Come go 'round and 'round and 'round
Some go wild, some go far,
some go home to stay
Some settle down, some get around,
Some people never change (chorus)

Something Good

Somethings got you singin'
A new song every day
Somethings got you smilin'
As you walk along your way

Chorus:

Something good has come into your life
Something fair and beautiful to see
Something good has come today

Now you don't know why
But your laughin'
And your fears have flown away
You can't fight the feeling that's
Fillin' up you heart (chorus)

Bridge:

Now your true love takes your hand
At your side is your best friend
All around loved ones stand

Your eyes fall on the sunlight
That dances cross the clouds
A river flows inside you
It's current deep and strong (chorus)

Jimmy Stu

You used to live in the country
Up in the ozone
One with the wind and sun
Now you live in the city
And oh what a pity
How you run
Jimmy Stu, what's with you?

You used to walk slow
You used to talk slow
Taking life by the day
Now you get up early
You push you shove,
Mind on the future always
Jimmy Stu, what's with you?

Bridge:

Well, it only goes to show
You don't know
What somebody might do
Who thought you'd get caught
How'd that happen to you?

Repeat First Verse

Love is Cool Water

Carmen, pretty Carmen,
You love so well
Reason for leaving
I couldn't tell
Carmen, pretty Carmen,
You love so well

Debbie June was a drifter
She drifted through me
She couldn't love me
I couldn't see
Debbie June was a drifter
She drifted through me

Chorus:

Love, love, love be
Like the stars, the mountain
Be like the sea
Like fiery stallions
That fly at dawn

You see so many try
So hard to be free
Must be some refuge
They have to believe
People are trying
So hard to be free

Love is cool water
And all our hearts thirst
Even you searchers
With a mission in life
Love is cool water
And all our hearts thirst (chorus)

Ohio River

Like some tan swan
On you glide
A long bright train
South you ride

Chorus:

Ohio river, so wide and slow
You flow through my dreams
Wherever I go

Under a pale moon
Or skies of blue
I come to your shoreline
To speak with you (chorus)

With friends and family
I used to gather on your shore
Then one day I rambled
Now I see you no more (chorus)

Pushcart Annie

I remember pushcart Annie
Trudging along with her cart
Up and down the alleys
Poring over people's trash
She was withered, gray and dirty
She was bent and hunched backed
Lord, Lord, you know she was an eerie sight

Hidden behind fences
Little boys would jeer
Hurl rocks, call her a witch
Their mothers sighed
Their father's shrugged it off
Boys will be boys
Anyway, they all knew, she was crazier than hell

One day someone noticed
She hadn't been 'round in weeks
The sheriff went 'round her shanty
She lay cold on the floor
As a child I wondered, I guess I wonder still
Does she search dark alleys
For what she never found

Time is a Blue Sky

Time is a blue sky
Where clouds drift
Our love a rainbow
That filled the sky

Chorus:

Though I learned to live without your
Every thought I have of you
Glow with love

You were a healer
My friend by choice
You soothed my fears
Then left one day (to chorus)

Bridge:

May peace flow
All through your life
May your soul grow
All through your life

Time is a blue sky
Where clouds drift
Our love a rainbow
That filled the sky
